Good Evening Ms. Sullivan,

Thank you for your email dated 5/1/2020. I hope that you and your loved ones are safe and healthy during these challenging times.

Believe me, I am fully aware that it's been two weeks and a day since you sent your original email. Please be assured that the EPA Ringwood team is working to fully address your concerns and questions. We are very close to a final response and I will work to make sure that we get back to you as soon as possible. Thank you for your continued concern for the site.

Regards,
Pat

Dear Ms. Seppi,
Good afternoon.
It's been two weeks and one day and I was wondering when you thought we might hear.

Good Morning, Ms. Sullivan,

Thank you for your email dated Monday, April 13, 2020. We appreciate your continued interest in the Ringwood Mines Superfund site. EPA is working on a response now to answer your questions related to relocation and will get back to you as soon as possible – hopefully this week.

I hope you and your family are healthy and staying safe!

Thanks again,
Pat

Subject: Moving Residents in Kent, but not in Ringwood?

Dear Ms. Seppi,

Once again we are studying the Ringwood Mines Superfund's Site as part of a local college program of studies. I represented to the students I would ask you, as the community liason, for both Superfund sites, why residents are being moved from the site in Kent, NY and new homes are being purchased for them by the EPA (or under its directive), but the residents of Upper Ringwood are not being offered this protection. They asked does this violate the equal protection laws of the United States. I did not have an answer. Do you?

Why are the residents of Kent being offered this option, but the residents of Upper Ringwood are not being offered such an option? Surely potable water is an issue, but what about air?

Judy Sullivan
